### 8th Graders Make Probability Games

This morning and afternoon, the 8th grade students presented their probability games to the young students of Our Savior as part of the new STEAM curriculum. Each 8th grader designed and built a game with probability in Mrs. Conway's Algebra class. Pre-Kindergarten, Kindergarten & 1st Grade played the games.

### "Getting To Know You" Mrs. Windy Carroll

#### What is your role at Our Savior?

*I am the Early Childhood and Extended Care Programs Director, overseeing the Preschool, Pre-Kindergarten and Early Childhood Extension classrooms as well as the Before- and After-School and Summer Camp programs.*

#### What is your favorite subject to teach? Why?

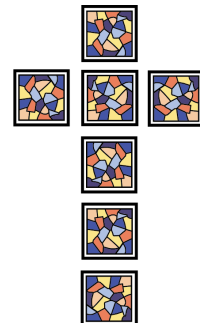

*I am an Early Childhood teacher, so my favorite thing to teach is social skills! It is so satisfying to help a child grow into someone who can be a part of a peer group and successfully navigate social situations. Plus, you can't beat learning through play!*

#### What is your favorite book or book series?

*My favorite children's books are "The Monster at the End of this Book" and "Diary of a Worm". For adult reading, I really love biographies and autobiographies because I am fascinated by the experiences people have and share!*
